TESTIMONIALS

We are very pleased with the service you have provided and more importantly with your flexibility towards our needs as well as your understanding of the business. It makes such a difference working alongside an agency that isn't so pushy and just after a sale! We really do appreciate how accommodating you have been.

CS – HR at leading 3PL

Terry has been successful in placing personnel with two Blue Chip Companies where I have been employed. His knowledge of the industry supports his understanding of your technical needs when placing applicants. He gets to know you as a client, so he understands how the applicant will fit into the Company and interface with Peers. His business model allows for a more personal service and the follow up service on how candidates are working out and allows for a continuous relationship with Terry and his Company Overall Terry and JLC Solutions give a tailored recruitment service which fits with my busy role, so I only get Involved with candidates who CAN do what is required.

DC - Customer Services Director

I'd just like to say thanks to you for all your help and advice. I'll certainly be in touch if we have any more requirements in the future and would recommend your services to anyone looking for similar.

TC - General Manager. Leading port-centric Logistics Provider

Expert, On time, High Quality

SP - International Logistics Market Leader

The CV you wrote for me did help me secure a job. I got hired as an Inventory Controller with a major 3PL and 7 months later I applied for a Warehouse Team Leader position on the same contract and got hired for that.

Thanks very much

SS - Client

I found the whole experience of job hunting with JLC Solutions comparatively easy. I was provided with all the information needed at every stage of the process. The initial interview was informal and relaxed which allowed a better flow of information between myself and Terry.

He was frank about the information which had been provided by his client and answered as many questions as he could including a company profile, a job profile and as much information as he had picked up during his discussions with the client.

Communication with Terry was swift and any messages or e-mails were dealt with in a timely manner. Having been through several interviews with other agencies, I can say that the process was simple and efficiently handled by JLC.
